PROJECTS

1. *DigiLocker-Style Document Storage Web App*

React.js, Node.js, MongoDB, JWT Authentication, AWS S3

- Built a secure, cloud-based platform enabling users to upload, store & retrieve documents digitally.
- Integrated with AWS S3 buckets for scalable & reliable document storage.

2. *Microservice Application in Golang (Using REST API)*

Go, Postman, MySQL, Docker (Basic)

- Developed a production-ready lightweight backend service demonstrating clean architecture principles.
- Developed as a extensional backend for above project for reducing backend latency and scalable request handling(horizontal).

3. *HealthCare Management System*

HTML, CSS, JavaScript, PHP, MySQL

- Developed a hospital workflow system managing patients, appointments & reports.
- Improved appointment scheduling efficiency and reduced manual data handling errors.

Miscellaneous

- **140+ Data Structure & Algorithm problems solved on LeetCode**
- **Oracle Cloud Infrastructure 2025 Certified DevOps Professional (3224785480CI25DOP0CP)**
- Led multiple teams in academic & technical events with strong collaboration and decision-making.
- Known to solve problems quickly, logically and with calmness under pressure.
- Highly sincere, focused and consistent in self-learning and team responsibilities

EDUCATION

Government College of Engineering, Aurangabad (GECA)

B.Tech — Information Technology

Expected Graduation: 2027
MHT-CET Percentile: 95.7

SKILLS

PROGRAMMING

3+ years:

- HTML/CSS/JS
- C++

1+ years:

- React.js, Node.js
- MongoDB
- Git, Github
- Prompt Engineering

0+ years:

- n8n
- Golang

TECHNOLOGY

- Git/Github
- AWS
- Linux UNIX
- AI agents
- Automation

LEADERSHIP EXPERIENCE

(2023-2025) **Co-Head — Catalyst**

Writers' Club, GECA

(2025-PRESENT) **Head — HackSlash**
(Coding Club), GECA
